

FEDERAL EMERGENCY MANAGEMENT AGENCY  
 NATIONAL FLOOD INSURANCE PROGRAM  
**FLOODPROOFING CERTIFICATE**  
 FOR NON-RESIDENTIAL STRUCTURES

O.M.B. No. 3067-0077  
 Expires July 31, 1999

The floodproofing of non-residential buildings may be permitted as an alternative to elevating to or above the Base Flood Elevation; however, a floodproofing design certification is required. This form is to be used for that certification. Floodproofing of a residential building does not alter a community's floodplain management elevation requirements or effect the insurance rating unless the community has been issued an exception by FEMA to allow floodproofed residential basements. The permitting of a floodproofed residential basement requires a separate certification specifying that the design complies with the local floodplain management ordinance.

BUILDING OWNER'S NAME  
 Hog Wild Construction, LLC

STREET ADDRESS (including Apt., Unit, Suite, and/or Bldg. Number) OR P.O. ROUTE AND BOX NUMBER  
 36080, 36082, 36084 & 36086 7th St. STS

OTHER DESCRIPTION (Lot and Block Numbers, etc.)  
 3N-10-27AC, #2201 & #2300

FOR INSURANCE COMPANY USE
POLICY NUMBER
COMPANY NAIC NUMBER

CITY STATE ZIP CODE  
 Nehalem OR 97131

**SECTION I FLOOD INSURANCE RATE MAP (FIRM) INFORMATION**

Provide the following from the proper FIF

COMMUNITY NUMBER	PANEL NUMBER	SUFFIX	DATE OF FIRM INDEX	FIRM ZONE	BASE FLOOD ELEVATION (In AO Zones, Use Depth)
410200	0001	C	12/7/1982	A6	10.7

**SECTION II FLOODPROOFING INFORMATION (By a Registered Professional Engineer or Architect)**

**Floodproofing Design Elevation Information:**

Building is floodproofed to an elevation of 12.7 feet NGVD. (Elevation datum used must be the same as that on the FIRM.)

Height of the floodproofing on the building above the lowest adjacent grade is 4.9 feet.

(NOTE: for insurance rating purposes, the building's floodproofed design elevation must be at least one foot above the Base Flood Elevation to receive rating credit. If the building floodproofed only to the Base Flood Elevation, then the building's insurance rating will result in a higher premium.)

**SECTION III CERTIFICATION (By Registered Professional Engineer or Architect)**

**Non-Residential Floodproofed Construction (**

I certify that, based upon development and/or review of structural design, specifications, and plans for construction, that the design and methods of construction are in accordance with standards of practice for meeting the following provisions:

The structure, together with attendant utilities and sanitary facilities, is watertight to the floodproofed design elevation indicated above, with walls that are substantially impermeable to the passage of water.

All structural components are capable of resisting hydrostatic and hydrodynamic flood forces, including the effects of buoyancy, and anticipated debris impact forces.

I certify that the information on this certificate represents my best efforts to interpret the data available I understand that any false statement may be punishable by fine or imprisonment under 18 U.S. Code, Section 1001.

CERTIFIER'S NAME Mark H. Tellhed	LICENSE NUMBER (or Affix Seal) 2766
TITLE Owner	COMPANY NAME Onion Peak Design
ADDRESS PO Box 326	CITY STATE ZIP CODE Nehalem OR 97131
SIGNATURE	DATE PHONE 11/27/2007 (503) 368-6051

Copies should be made of the Certificate for: 1) community official, 2) Insurance agent/company, and 3) building owner.
